INTRODUCTION

Bhagat metal pvt. ltd now known as Bhudevi Metal is established in 2071 B.S in Bharatpur -5, Chitwan with the objective of offering the market a higher level of excellence in metal work & steel fabrication. Bhudevi metal is an ISO certified international standard manufacturing industry specializing in steel works that produces different kinds of doors and windows frames along with products for the use in road safety. Heavy steel structures (I-Beam, I-smc channel), Steel made trusses, rolling shutters, flush doors, steel doors and windows ,and many more products of road safety are made by Bhudevi Metal. We are pioneers of manufacturing road safety and

road signs products like road crash barriers, road sign posts, Traffic sign posts, gantry posts, etc.

We are a group of experienced professionals working in a consortium for over 15 years of togetherness of expertise to offer you. We comprise high profile engineers, discrete technicians and skilled laborers to manufacture steel products of international standards. Equipped with latest computer controlled machinery and equipment we are a well renowned company in keeping our promises of guaranteed quality products delivery right on time.

Mr. Dharampal Singh Rawat is a visionary leader with over 25 years of experience in the metal fabrication industry. As the Chairman of Bhagat Metal Pvt. Ltd., he has been instrumental in driving the company's growth and success, establishing it as a trusted name in the sector. His entrepreneurial spirit extends beyond metal fabrication, as he is also the founder of Dhangadhi Fun City Amusement & Water Park, a pioneering venture that has set new standards in Nepal's entertainment and hospitality industry.

With deep expertise in the automobile sector as he was founder of BM Traders Pvt. Ltd., Mr. Rawat's strategic foresight and innovative approach have shaped Bhagat Metal Pvt. Ltd. into a leader in delivering custom engineering solutions. His commitment to operational excellence, customer satisfaction, and sustainable practices continues to inspire the company to achieve new milestones.

As a trailblazer in both the industrial and entertainment sectors, Mr. Rawat exemplifies a relentless pursuit of progress, leaving a lasting impact on the industries he serves and contributing significantly to Nepal's economic development.

MESSAGE FROM THE **CHAIRMAN**

At Bhudevi, we are committed to excellence, innovation, and sustainable growth. With over 25 years of experience in the metal fabrication and automobile industries, I believe in delivering custom-engineered solutions that exceed expectations.

Our journey is driven by a passion for progress, a dedication to customer satisfaction, and a vision to contribute meaningfully to Nepal's economic development. Together, we will continue setting new benchmarks for success.

DHARMAPAL SINGH RAWAT

Chairman

MESSAGE FROM THE **DIRECTOR**

At Bhudevi Metal Pvt. Ltd., we believe that the strength of a company lies in its ability to adapt, innovate, and diversify. My professional journey across multiple industries—including fashion, healthcare, clothing, and hospitality—has provided me with a broad spectrum of experience in business management, helping me lead with a dynamic and forward-thinking approach.

Having worked as an international model with Kavyar Fashion and gained valuable experience in the healthcare sector, I developed a deep understanding of brand positioning, customer engagement, and service excellence. My entrepreneurial ventures, including running the TrendyPrinses clothing brand and managing the hospitality business Ground Zero, have further honed my expertise in operations, brand development, and customer relationship management.

At Bhudevi Metal, I bring this diverse portfolio of experience to contribute to our strategic growth, ensuring that our business remains not only a leader in metal fabrication but also a company that understands and responds to evolving industry trends. Our commitment to quality, efficiency, and customer satisfaction remains at the heart of everything we do.

With a team of dedicated professionals and a strong leadership vision, I am confident that Bhudevi Metal Pvt. Ltd. will continue to grow, expand its reach, and set new benchmarks in the industry. Together, we are building a legacy of excellence, one project at a time.

SUJATA GHIMIRE

Director

MESSAGE FROM THE **MANAGING DIRECTOR**

At Bhudevi Metal Pvt. Ltd., our commitment to excellence in manufacturing and metal fabrication is driven by a deep-rooted passion for innovation, precision, and problem-solving. With over a decade of experience in running a metal factory and a strong foundation in engineering, I bring a technical perspective that allows us to navigate challenges and optimize manufacturing processes with efficiency and expertise.

Our journey so far has been one of continuous growth and transformation. From ensuring the highest quality in our products to implementing cutting-edge solutions, we take pride in being a company that values durability, functionality, and technological advancement. With a dedicated team and an unwavering vision, Bhudevi Metal has successfully established itself as a reliable name in the industry.

Beyond the manufacturing sector, my experience spans multiple industries, including hospitality and international trade. As a top business advisor for CTEX Import and Export, I have worked extensively to bridge the gap between global trade networks and local businesses. These experiences have shaped my approach to leadership, reinforcing the importance of adaptability, strategic decision-making, and customer satisfaction.

At Bhudevi Metal, we are not just building products—we are building trust, reliability, and long-term partnerships. I am confident that with our shared vision and commitment, we will continue to push boundaries, drive innovation, and contribute meaningfully to the industrial growth of Nepal.

DIPENDRA SINGH RAWAT

Managing Director

Ranju Thapa, a CEO of remarkable distinction, embodies academic excellence, dynamic leadership, and unwavering dedication. Her journey spans health, IT, and education, where she now stands as a beacon of community leadership. She also served as the Global Secretary and Spokesperson for ICC NRNA.

Ranju has tirelessly championed women's empowerment and youth leadership, leaving an indelible mark through forums such as her role as the Founding President of the NRNA Women Forum Nari Nikunja Australia and other Nepali community initiatives. In 2019, she established the ISR (International Student Reach) Foundation, providing vital support to international students facing financial and mental health challenges. Her contributions to education were recognized in 2023 with the prestigious Dr. APJ Abdul Kalam International Award.

MESSAGE FROM THE **DIRECTOR**

At Bhudevi Metal Pvt. Ltd., we are driven by a singular vision: to innovate, inspire, and impact the construction and infrastructure landscape of Nepal. Since our inception in 2071 B.S., we have worked tirelessly to redefine excellence in steel fabrication and metal works, ensuring quality, sustainability, and customer satisfaction at every step.

Our commitment to sustainability is reflected in our efforts to offer steel as a reliable, cost-effective alternative to traditional materials like wood. By making this choice, we contribute to preserving the environment and combatting deforestation, fostering a greener future for generations to come.

What sets us apart is not just our state-of-the-art technology or ISO-certified manufacturing processes but our unwavering dedication to our clients. Every project we undertake is a testament to our ability to combine technical expertise with creativity, delivering solutions that are both functional and elegant.

I believe that the strength of our company lies in the people who form its backbone—our skilled engineers, technicians, and staff—who bring innovation and integrity to every product we craft. Together, we aim to leave a lasting impact on Nepal's infrastructure development and beyond.

We are grateful for your continued trust and support as we forge ahead, building bridges—both literal and figurative—toward a sustainable and prosperous future.

RANJU WAGLE

Business Development Executive Director

Shweta Khadka is a dynamic entrepreneur and accomplished actress in the Nepali film industry, celebrated for her leadership across various sectors. She is the Founder and CEO of MRS & Engineering and the Executive Marketing Director at Bhudevi Metal Pvt. Ltd. Shweta owns the Himalayan Java coffee brand, promoting local coffee culture and sustainability. A passionate social activist, she founded the Shwetashree Foundation to support earthquake recovery and community development. Recognized with numerous awards, Shweta is a prominent figure in the construction and hospitality industries. Through her entrepreneurial spirit and commitment to social welfare, she continues to inspire and drive positive change in her communities.

MESSAGE FROM THE **DIRECTOR**

At Bhudevi Metal Pvt. Ltd., our unwavering commitment to delivering excellence and ensuring client satisfaction sets us apart. As the Executive Marketing Director, I take immense pride in being part of a company that values quality, timeliness, and innovation.

Our journey so far has been one of growth, collaboration, and dedication, with a team of skilled and cooperative professionals working tirelessly to meet and exceed the expectations of our clients. With more than hundred

projects across Nepal, Bhudevi Metal Pvt. Ltd. has demonstrated its ability to provide exceptional solutions that align with the evolving demands of the industry.

Beyond business, we prioritize making a positive impact on society. By embracing teamwork and focusing on social responsibility, we aim to set a benchmark for how businesses can contribute to community development. With strong ties to our sister organizations, Bhudevi Metal continues to create opportunities and programs that benefit people from all walks of life.

I am confident that with our shared dedication and vision, Bhudevi Metal Pvt. Ltd. will continue to build trust and transform lives, one project at a time.

SHWETA KHADKA

Executive Marketing Director

VISION

#Time #Money
#Standard #Elegance

Let us build a stronger, durable, elegant and environment friendly Nepal. We have envisioned breaking the traditional bondage. Lets not cutdown trees for construction purposes. Steel doors and window frames that give a better look and feel than wood does, may help save a lot of trees. Deforestation is a major cause of climate change and global warming. We have taken a step forward to play our bit in preservation of our flora and fauna.

- Time is the real investment for any entity. We envision time both in terms of money and era. As the age old saying furnishes the true spirit of time “Time is money”, we are dedicated to keeping the promise continued in fulfilling timely delivery of the ordered products and no false promises.
- Every coin saved is equal to every coin earned. Yes!! With everyday increase in the price of wood products and as it is evident to preserve trees it was seen in recent years that people have shifted to alternatives like aluminum and steel. Steel is cheaper than wood both in terms of money and environment. Steel has better strength, longer life and reusability compared to all its competing counterparts like wood and aluminum.
- Based on the norms finalized by national and international standards, we are forced to maintain at least a degree up the ISO standards without any compromise in quality.
- Even at closer looks, we maintain the creativity of perfection in elegance. We state that “you won’t know if it is not wood unless you touch it deliberately”. Creative designs, well distinguishable colors and patterns will dazzle you.

PRODUCTS

- Guard Rails/Road Crash Barrier
- Door Frame (Powder Coated)
- Window Frame (Powder Coated)
- Ventilation (Powder Coated)
- Rolling Shutter, Flat Shutter
- Heavy Steel Structures
- Hydropower Dam Formworks
- Truss Bridges
- Motorable Bridges

- Fabrication
- Rust Cleansing
- Activation
- Phosphating
- Passivation
- Powder Coating (Approx. 60 Microns)
- Baking on 240° Celsius for 45 min.
- Laminating (Surface Protection Film)

Since the company is aware of the corrosion on steel, we make sure the products of our company are free from corrosion and other effects, that is why our products are either powder coated or galvanized.

Advance Procedure of Powder Coating

Door Frame

Providing and fixing a steel door frame (machine-folded, rolled forming) as per drawings, made from 1.60mm thick mild steel sheet (232mm width), with 4" SS premium hinges. The frame undergoes a nine-tank chemical treatment, hot zinc phosphate coating, and Hawcoplast PPS413 polyester powder coating in an automatic conveyor machine. Includes welded joints, adjustable lugs with split-end tails, steel butt hinges with mortar guards, and reinforcements for door hardware and strike plate, as per specifications and engineer's instructions.

Window Frame

Providing and fixing a 232mm wide, 1.60mm thick mild steel door frame (machine-folded, rolled forming) as per drawings, with 12" SS friction stay hinges. Chemically treated (nine-tank process), hot zinc phosphate coated, and Hawcoplast PPS413 polyester powder coated in an automatic conveyor machine. Welded and rigidly fixed with adjustable lugs, steel butt hinges, mortar guards, and reinforcements for window hardware and strike plate, as per specifications and engineer's instructions.

Door Shutter

Providing, fabricating, and installing a 25mm thick door shutter using 25mm x 40mm x 1.5mm MS rectangular pipe, with 1mm thick x 100mm wide MS sheet infill and stiffening strips. Includes necessary hardware (hinges, tower bolts, handles, al drop with padlock). Chemically treated (nine-tank process), hot zinc phosphate coated, and Hawcoplast PPS413 polyester powder coated in an automatic conveyor machine. Welded and fixed with adjustable lugs, steel bush hinges, mortar guards, and reinforcements for door hardware and strike plate, as per drawings, specifications, and engineer's instructions.

Windows Shutter

Providing, fabricating, and installing a 28.8mm thick window shutter using 1.2mm thick, 190mm wide folded sheet for stiles and mullions, with a 1.2mm thick x 100mm wide MS sheet infill and stiffening strips. Includes necessary hardware (hinges, tower bolts, handles, al drops with padlock). Treated with a nine-tank hot phosphate process and pure polyester (PP) powder coated in an automatic conveyor machine. Welded and fixed with adjustable lugs, steel butt hinges, mortar guards, and reinforcements for window hardware and strike plate, as per drawings, specifications, and engineer's instructions.

W-BEAM/ROAD CRASH BARRIER

Bhudevi Metal Pvt. Ltd is Nepal's First manufacturer of metal crash barriers. Crash Barrier is nowadays used in medians on the motorways. W-beam are basically a road safety system which prevents vehicles from colliding with obstacles such as boulders, walls, buildings and also prevents vehicles from entering into large storm drains, steep slopes and deep water.

Bhudevi Metal is the first company to

introduce the metal crash barriers concept in nepal and we have been supplying to all leading infrastructure companies all over nepal. W-beam is probably something most people don't think about but still it saves their lives. It's proven road safety system and is taught to you by Bhudevi Metal. Which undertakes design manufacturing and installation of wide range guard rails under stringent quality control. Our metal crash barrier conforming to all major Specification Like:

- **American Association of state highway and transportation officials (AASHTO-180)**
- **Ministry of road transport & highway, India (MORTH)**

THICKNESS	EFFECTIVE LENGTH	OVERALL ENGT	SECTION AREA (CM ²)	MOMENT OF INERTIA		SECTION MODULUS	
				I-XX(CM ³)	I-YY(CM ³)	Z-XX(CM ³)	Z-YY(CM ³)
3.00/3.43 MM	4000 MM	4318 MM	14.35	1328.8	106.15	88.8	24.57

- Cold roll formed "C" channel.
- Hot dip galvanized (550 GSM- and above).
- 5mm thickness available in customized length.
- Raw material: ST 42/IS 5986 fe 410 grade steel.
- Post spacing: 1.5 to 2.0 mtr. C/C as per requirement or as per instruction.

STEEL STRUCTURE

Bhudevi metal Pvt. Ltd. Specializes in heavy steel Structures (I-Beam, I-SMC channel) and steel made trusses. It's been 6 years since we started steel structure work and have completed various Mega Structures implementing steel skeleton. Despite being a relatively young company in steel structure, the design and production experience gained by the management team for many years creates a leverage effect regarding all types of light and heavy steel buildings.

We trust our experienced and certified team of welders that always does their work in compliance with necessary standards.

To meet the need of Clients, Bhudevi Metal stands on the know-how of an experienced team:

- **Professional, experienced engineers**
Reliable estimators capable of assessing various projects
- **Qualified production technicians**
- **Specialized manpower**

This team can assist you in any type of fabrication and erection of steel products and structures. Bhudevi Metal has the equipment support to meet the various standards or more complex needs of its construction field.

HYDROPOWER FORM WORKS

We take pride in contributing to Nepal's growing hydropower sector by providing specialized formworks for dam construction. Our high-quality dam shutters and formworks are designed for precision, strength, and efficiency, ensuring the seamless execution of large-scale hydropower projects. Whether for spillways, diversion structures, or intake tunnels, our solutions support sustainable energy generation with unparalleled reliability.

OUR ONGOING PROJECT:

Tanahu Hydro Power

Bhudevi Metal is proud to contribute to this transformative project, located on the Seti River near Damauli, which is set to harness the river's energy for sustainable power generation. As part of this initiative, we are manufacturing dam shutters and providing structural support to ensure the project's success.

This project underscores our commitment to sustainable infrastructure and energy solutions for the nation's future, aligning with Nepal's vision for renewable energy development.

BRIDGES: Connecting Communities, Empowering Growth

Bridges are more than just structures; they are lifelines that connect communities, enable commerce, and drive development. At Bhudevi Metal, we take pride in designing and constructing bridges that are safe, durable, and tailored to meet the unique needs of each region.

Our Expertise in Bridge Construction:

1. Truss Bridges
2. Motorable Bridges

Why Choose Us?

- **Reliability:** Our bridges are built to last, combining advanced engineering with stringent quality control.
- **Customization:** Every project is unique, and we tailor our solutions to meet specific requirements and environmental conditions.
- **Sustainability:** We focus on eco-friendly construction practices, minimizing environmental impact while maximizing utility.

By bridging gaps—both literal and figurative—we contribute to the nation's progress, one structure at a time. Whether connecting rural villages or bustling cities, our bridges pave the way for a brighter, more connected future.

Our Ongoing Bridge Projects:
